

## HOME FIRES STILL REQUIRE ATTENTION

They Will Be Kept Burning by Proceeds of New Victory Loan

The home fires have still to be kept burning. Nothing is surer than that. The important thing was only and faithfully looked after while the men of the house were away for the long of his heroic mission. Every body helped.

Persons who had never before bothered much about the home fire and that sort of thing joined the others and went to work with an earnestness which could have but one reward. They linked together wonderfully and the way the home fire was kept burning in Canada because the talk of the world, it established an enviable reputation which must be maintained now that the home has been saved for civilization.

The staid manner in which Canada set about her task and the steadfast enthusiasm which marked the continuation in times of stress and anxiety called forth universal admiration.

This must be maintained. The war is over, but the necessity of keeping the home fire burning is not.

The great credit is followed by new and heavy obligations. Ignorance problems have to be faced. The magnificent spirit which brought the Canadian people to the aid of the world must prevail in the tedious transition from war to peace. The Victory Loan of 1919 must prove worthy of its illustrious predecessor.

It is the only way to keep the home fire burning.

## GRAND PLAN IS TOTAL LOSS

Large Building at Chipman  
Completely Destroyed by Fire on Friday Evening

The large plant of the Chipman Milling and Grain Company, at Chipman, Alberta, was completely destroyed by fire on Friday evening. The fire started about 8 o'clock in the evening while the mill was in operation, and the origin of the blaze was from a hot-box in this driving shaft around the machinery.

A report received in the city two hours later stated that the blaze was entirely under control, but that the building was a mass of ruins. According to this report, the fire broke out in the basement, and it was only a matter of several minutes when the entire structure of the building was totally collapsed.

There was no loss of lives and no other buildings escaped any damage from the fire. The Chipman Milling and Grain Company plant was only erected a short while ago.

## CANADA MARCHING FORWARD IN BRISK PEACE BUSINESS

Records of Bank Clearings Indicate Country Stepping into  
Peace-Time Stride

When war was a year ago was demanding all the effort and energy of the country high record marks were being set up by Canadian business. Records for munitions and fighting materials, high markets for farm and forest and other surplus products, were recorded as the reasons for the remarkable increase in trade totals. It was freely said that with the abolishing of the need for war materials trade would fall away, the energy of the people would let down, and there would come a time of readjustment to peace and quiet.

What has happened? Quite the contrary of war time prophesies. Instead of the people, fatigued by war strain, letting down for a spell of rest, they have attacked the new conditions with vigor and enterprise. To take the place of war orders have come great orders for material to rebuild Europe, and greater orders for food and other necessities.

Our first peace year shows Canada enjoying prosperity. The figures show that any that has been shown in Canada history. Yet the first six months of 1914 have shown a business boom of this year, has increased by an average of about 20 per cent. over the same month last year. Last year was the best business year in Canadian history. Yet the first six months of 1914 have shown a business boom of this year, has increased by an average of about 20 per cent. over the same month last year.

There is no doubt that for our country of giving credit to Britain and other of the allied nations so that they may purchase our goods and services, the country is stepping into a great part of the prosperity all Canada is enjoying. The country is stepping into a great part of the prosperity all Canada is enjoying.

Another interesting fact in the comparison of bank clearings is that in 1913 the total of bank clearings was \$1,200,000,000, and in 1914 it was \$1,500,000,000, an increase of \$300,000,000.

## TELEPHONE DEPT. HOPE TO COMPLETE SEASON'S PROGRAM

Eight Hundred Miles of Toll  
Lines Have Been Completed

In spite of the labor shortage that has been experienced by the department of telephones the toll, it is hoped to complete the season's program by Tuesday. There have been about 800 miles of toll lines completed this year and the toll stations established. These are all over the province, scattered from Athabasca to Carleton, with the idea of trying to give service to the isolated areas. Last year, the same of this was well shown during the winter months.

While the toll lines are getting fairly well completed, the department of telephones is also working on the toll lines. ## "WHERE DO WE GO FROM HERE, BOYS?" WAS THE SUBJECT

Prof. W. H. Alexander Gives a  
Stirring Address Before First  
Unitarian Society

The address delivered annually by Professor W. H. Alexander at the meeting-house of the First Unitarian Society in the morning of the 11th of the University have always been effective, but that of yesterday was particularly fresh and original in its conception and expression.

The speaker, after defending his right to talk to youth about youth on the ground that youth was a matter of spirit and not of years, said that he wished to give ideas, but that youth was a matter of spirit and not of years, said that he wished to give ideas, but that youth was a matter of spirit and not of years.

He wished to give ideas, but that youth was a matter of spirit and not of years, said that he wished to give ideas, but that youth was a matter of spirit and not of years, said that he wished to give ideas, but that youth was a matter of spirit and not of years.
